MEDICINAL.

KEEP THEM OUT—all those germs, the seeds of disease, that are trying day and night to get a foothold in your system. You can't do it, unless your liver is active. That is all you have to depend upon, to keep them out of your blood.

The very best medicine for the liver and the blood, is Dr. Paro's Golden Medical Discovery. Take that when you're getting thin, when you have pimples or eruptions, when you've no appetite and feel "run-down" (these are warning signals)—and you'll save yourself from serious illness.

Franklin, Lane Co., Oreg.

Woman's Dispensary Medical Association: "Gentlemen—My wife, of whom I wrote you is another woman as far as her health is concerned; since taking your 'Golden Medical Discovery' and 'Pilllets,' she says she feels better than she has for years. She has gained twenty-five pounds in three months.

Tired, Weak, Nervous Could Not Sleep.

Prof. L. D. Edwards, of Preston, Idaho, says: "I was all run down, weak, nervous and irritable through overwork. I suffered from brain fatigue, mental depression, etc. I became so weak and nervous that I could not sleep. I would arise tired, discouraged and blue. I began taking

Dr. Miles' Nervine

and now everything is changed. I sleep soundly, I feel bright, active and ambitious. I can do more in one day now than I used to do in a week. For this great good I give Dr. Miles' Restorative Nervine the sole credit.

It Cures."

WOODLAWN FARMERS' CLUB.

The October meeting of the Woodlawn Farmers' Club was held at the residence of W. Gillingham on the 13th inst., President Harrison in the chair. The minutes of the last meeting were read and approved.

The president presented a letter from Gen. Roy Stone, chief of the road bureau of Agricultural Department, of Washington, calling attention to the road convention to be held in Richmond on the 18th inst., and suggesting the appointment of delegates to the same.

The road commissioners of this district—J. N. Gibbs, A. W. Harrison and James W. Roberts—all being members of this club, were appointed for the purpose named.

An extract from the report of the secretary of the Kansas Board of Agriculture was read, which gave the experience of two of the leading stock feeders of that State, from which it appeared that in one case a bushel of wheat made fifteen pounds and in the other seventeen pounds of pork. This was expected to be by several members, who thought there was a mistake somewhere, as it could not be done about here, they thought. If any one can do as well on the Atlantic slope we would like to hear from him.

Another article was read about "feeding wheat to hens," and as to "why hens stop laying," which brought about a lively discussion. Some thought they were more profitable than most other stock, while there were others who seemed to argue that they could get away with about as much food in proportion to their size as any other stock, and at the same time be extremely slow in sending in the returns. On the other hand one member mentioned an instance of a hen that had stolen her nest and hatched out nineteen chickens and raised seventeen of them without ever calling at headquarters for supplies.

The meeting then adjourned to meet at John Ballenger's on the 10th of November.

W. GILLINGHAM,
Secretary.

TIGER-SLAYER-IN-CHIEF.

The great drawback to Singapore, and in a lesser degree to Penang and the islands in the neighborhood of Malacca, is that the dense and impenetrable woods with which they are clothed afford shelter to countless tigers of a very ferocious description. It has therefore been found necessary to create an office which is called in England "Tiger-Slayer-in-Chief" to the governor of the Straits Settlements. Singapore is but a short way from the mainland, and the tigers have for many years been in the habit of swimming across the straits and issuing forth at night from their fastnesses to prey not only on the flocks and herds of the natives, but occasionally upon young children and unprotected women.

To those who are aware of the proficiency and courage shown by French sportsmen in their pursuit of big game, it will be no surprise to learn that the Governor of the Straits Settlements has just selected a citizen of that aspiring nation—J. de Nancourt by name—to fill the post of "Tiger-Slayer-in-Chief" at Singapore. It appears that M. de Nancourt has killed five hundred tigers with his own rifle, against a bag of only four hundred made by Major-General Probyn, the well-known English shikari. Some of the Parisian newspaper correspondents claim credit for the French nation as supplying an official akin to their own grand loutreux for employment in a British colony. We are reminded by our lively friends across the channel that until M. du Challa encountered and slew the gorilla we knew nothing as to the existence and habits of that formidable monster, and that the greatest of our living hunters, Mr. Selous, is of French origin. If M. de Nancourt is able to keep down the number of tigers hunting the jungles and woods of Singapore and taking toll of the native inhabitants, neither the latter nor any other British subject will take any exception to his nationality.

The great bulk of the population of Singapore, numbering altogether nearly two hundred thousand souls, are Chinese and Malays, who, like the natives of India, look to white shikaris to rid them of dangerous and savage beasts of prey. In the meantime the dependencies of Great Britain in its neighborhood demands that what is called "the scourge of the colony"—the tiger—should be kept within reasonable limits. We hear, therefore, with satisfaction that a "Tiger-Slayer-in-Chief" to the Governor of the Straits Settlements" had been created for this purpose.
